## **Berkeley County Launches “Building Berkeley” Infrastructure and Growth Website**

*New Site Includes Interactive Project Map*

MONCKS CORNER, S.C. - (Wednesday, May 16, 2018) Berkeley County launched a new, interactive website today, aimed at keeping residents informed about growth, infrastructure and quality of life in one of South Carolina’s fastest growing counties.

The site, [Building Berkeley \(www.buildingberkeley.org\)](http://www.buildingberkeley.org), features information regarding County initiatives, an interactive map highlighting completed, ongoing and future infrastructure projects, news coverage and announcements, and a feedback tool.

“There is an incredible amount of activity in Berkeley County when it comes to infrastructure, safety and quality of life,” said Berkeley County Supervisor Bill Peagler. “We want to share that information with residents in an easy-to-use manner so they can be aware of what’s happening in their community.”

The County plans to add to the site and keep it updated with further projects and information. Officials also hope residents will use it as a forum to ask questions and share ideas.

“Over the last three years, we’ve been working hard to not only get caught up, but also get ahead of Berkeley County’s growth,” Peagler said. “With a strategic, innovative, and forward-looking plan, we are Building Berkeley by making necessary investments today to create an even brighter future for our community.”
