Berkeley County Launches New Emergency Notification System

Encourages Citizens to Sign-up for Notifications to be Prepared for an Emergency

MONCKS CORNER, S.C. (Tuesday, May 14)- The Berkeley County Communications Department (911) recently launched a new emergency notification system. This reverse 911 system will alert citizens when there is a potential risk of danger or emergency. This will keep residents and travelers informed on potentially hazardous situations involving weather, crime and other emergencies.

To receive notifications, citizens should register at: <https://berkeleycounty.onthealert.com/>

This system is used to alert individuals and businesses to the risk of danger by sending a recorded voice message or text message to registered cellphones within a defined geographical area.
